

## Overall Budget Summary

August 3, 2020

---

The focus of this year's budget process was to conservatively estimate revenues while carefully evaluating the need for capital purchases/projects and adjusting salaries and benefits. We started the budget process in April by developing a budget calendar and distributing budget templates to the department heads for their use in submitting their budget requests. Department heads were given until May 29th to submit their requests to the Finance Department. Input was also gathered from outside sources such as MEAG and MGAG. The Finance Department compiled the requests. The City Manager and the Chief Financial Officer met with each department head to determine priorities for their respective departments. Then the City Manager worked with Finance to develop the budget document presented here. The City Manager provided guidance as to funding priorities in the various departmental and fund budgets.

### Revenues:

**SPLOST:** The budget proposes using a portion of the accumulated SPLOST funds as well as estimated current receipts to match a CDBG grant and LMIG paving funds as well fund a portion of the splash pad project. In addition, we are funding the purchase of vehicles and equipment for both the police department and public works.

**Grants:** The City has applied for three grants for the upcoming fiscal year. The CHIP grant that was awarded in the current fiscal year is still in effect for the upcoming fiscal year. We have applied for a \$750,000 CDBG grant for the sewer upgrades on West Circle. The matching funds for this grant are being funded using SPLOST funds and will be used to build sidewalks in conjunction with the sewer project. In addition, the City has received notification from the Georgia Department of Transportation of CARES Act Funding from the FAA for improvements to the Camilla-Mitchell County Airport.

**Loans:** The City has applied for three GEFA loans for Water and Sewer System improvements. These loans total \$3,500,000 with \$1,690,000 in loan forgiveness. Two of the loans are zero interest loans for 20 years and one is 1.94% for 20 years. The debt service for these three new loans should begin during the FYE 2022 fiscal year and will total about \$100,000 per year. The Water and Sewer fund has three loans reaching maturity in the FYE 2021 budget year which will reduce the city's debt service payments by about \$535,000 per year, including the portion supported by availability charges.

Municipal Court fines and jail surcharges have been increased based on the current year trend for receipts. The Police Department remains focused on neighborhood policing.

Interfund transfers have been reduced for a number of reasons. A decrease in the transfers from the gas fund totaling \$289,000 has been made due to the closure of the Flint Hills Ethanol Plant, which was our largest natural gas customer. This decrease has been offset with reductions in various operational budgets as well as increases in property tax collections.

## Overall Budget Summary

August 3, 2020

---

Estimates for SPLOST have been reduced based on the effects of the COVID19 shutdown. Other changes to the General Fund revenues are not necessarily operational changes but attributable to changes in revenue estimates for property taxes, motor vehicle taxes/TAVT, and LMIG revenues. The proposed budget does not anticipate any changes in the millage rate for property taxes nor does it anticipate any changes in the utility rates. The revenue estimates were revised based solely on trend data.

### Expenses:

The City of Camilla operates a partially self-funded group health insurance plan. In prior years, the City has routinely set aside 100% of the actuarially expected claims to pay any actual claims incurred during the fiscal year. The result of this is a surplus in the Health Insurance Trust account. While it is prudent to continue to set aside funds for claims, we continue to believe that a lower funding rate is a better option at this point. Funding at a lower level will decrease the accumulation of funds but at the same time will allow those funds to be freed up for other City initiatives. The proposed budget maintains the budgeted funding rate at 70%. The goal is to set the funding rate once per year and reevaluate the claims fund annually during the budget process.

Funding for a Citizen's Academy program have been included in the City Council budget. Additionally, funding for the annual maintenance for the new website and for legal review and codification of updated ordinances have been added to the City Clerk's budget.

The proposed budget includes little change in the staffing levels throughout the city. Although the number of positions remains stable, some of the positions have been reallocated between various departments. For example, the Utility Director position was moved from the City Manager's budget and split between the Water/Sewer, Gas and Electric utilities. In addition, we are anticipating changes in staffing skill levels in various departments, especially in the utilities. The salary projections include a three (3) percent merit increase for city employees.

Other expenses were cut in various departments totaling \$70,000 to complete balancing the budget. Some of these expenses included printing, advertising and other unused expense categories.

### Capital Outlay

Proposed capital purchases for the General Fund include the following:

- Recreation Improvements - \$250,000
- Access control system-Buildings - \$20,000
- Vehicles & Equipment- Police - \$64,000
