UTILITY BILL ASSISTANCE PROGRAM

Due to the unusually cold weather recently experienced in Camilla and surrounding communities, utility customers may experience a higher than usual utility bill in February. People across South Georgia have shown WALB their utility bills and how much they have increased ([click here](#)) and the same pattern of higher utility bills is being felt in Camilla.

The City of Camilla announces it is offering a three-month payment plan for qualified customers (no late payments for 12 months) needing assistance with high utility bills. Customers are required to pay their normal bill and the excess will be spread out over a three-month payment period.

For additional program information call Denise at 330-2305 or visit the Customer Service Department at City Hall.

BUDGET BILLING

The City of Camilla reminds customers a budget billing program is offered and available for enrollment in March and September. Participation in the budget billing program essentially provides a consistent utility bill over a period of 12 months so you don't experience high bills depending on the season and weather conditions. You have one steady utility bill so you know how much money to expect to pay each month. Interested customers are encouraged to call 330-2304 for additional information or visit the Customer Service Department at City Hall to enroll.
